Delta Tau | Murray State University

President's Desk

A welcome from the Delta Tau President's Desk.

by Hayden Jaco, President on May, 24, 2021

Hello from Delta Tau. I am Hayden Jaco, the newly elected President of Delta Tau. A resident of Benton, Kentucky, I was initiated in the fall of 2018 and inducted into the Beta Delta pledge class. Currently a senior student working towards a Bachelor of Science degree in Business Administration. Regarding the upcoming semesters, these are very exciting times to be a brother of Alpha Sigma Phi. The COVID-19 restrictions have been lifted, and Murray State has ensured us of a normal semester. Due to COVID-19, student life decreased greatly over the last two semesters.

Spring 2021

Delta Tau | Murray State University

As President, I will work directly with our officers to restore our successful past by hosting on campus events such as Greeks Got Talent, Sig Olympics, and Tent City while competing to win All Campus Sing, Mr. MSU, and All Sports Cup (for the third year in a row). Lastly, the chapter will constantly plan events throughout the year to increase brotherhood comradery. These events will include backyard grill outs, sport days, weekend retreats, and formal. I truly want these men to be able to look back on their years in Delta Tau and say these were their favorite times in college. As always, proud to be a Sig.

TOP STORIES

Rake and Run Raises \$500

by Kaleb Willie, VP of Communications on May, 24, 2021

Rake and Run was a huge success. We navigated through COVID-19 by limiting group sizes to 9 per group and managed to rake 14 yards with a total yardage of 8.08 acres of land. Rake and

Run allows us to positively impact the community in two ways. The first way is to do something nice for the people of Murray by going out and raking their yards. Some of the people's yards we raked were unable to rake their yard due to certain circumstances, so it allowed us to really help those in need. The second way was to raise awareness and accept donations for the Laker Project. The Laker Project is a local charity that is done through the Calloway County School system. They take donations and buy gifts for the children whose parents cannot afford gifts. It lets us give children in need the experience of a Christmas morning that was given to all of us. In total, we collected \$500 from Rake and Run and donated our proceeds to the Laker Project.

Brotherhood Events

by Jayden Birkner, Brotherhood Chair on May, 24, 2021

In these covid-stricken times, having brotherhood events with the whole fraternity has been very difficult. Thankfully, the leaders of Delta Tau still managed to put together events that many brothers got to enjoy. Newly elected president Hayden Jaco was kind enough to

open his home to the chapter for a weekend. The day started with some brothers participating in a skeet shoot in a field by his house, which turned out to be very successful. Many other brothers arrived after the shoot ended, where we were all welcomed by a buffet of delicious food provided by Mr. and Mrs. Jaco. From burgers, chicken legs, and sausages to cookies, brownies, rice krispy treats, we were treated very well. The highlight of the day were the multiple softball games that we played at their very own field they had made at their house. Many of the brothers' competitive sides came out in these games. The day wrapped up with guys playing football, spike ball, and ultimate frisbee. It was all around a great day.

Another successful brotherhood event the chapter held was a trip to TopGolf in Nashville. Many brothers made the two-hour trip and tried to best display their golf skills. I would say almost all of us should stay in school and not pursue a golf career. However, we had an extremely fun time and made memories we will never forget. We wrapped up the year with the senior sendoff in the backyard of the house along with a barbeque prepared by a handful of brothers. Although covid has caused us to lose out on many fun events we usually would have, Delta Tau made this past year as memorable as they could have.
