

Designed for architects, contractors, and discerning homeowners, Drake Garage Doors combine a sleek, modern aesthetic with high-performance engineering. Featuring a precision section seal, these doors do more than just secure a garage—they transform spaces. Use them as sophisticated indoor loft partitions or versatile solarium doors to bring a contemporary edge to any project. With an extensive range of glass options, you maintain complete control over privacy and natural light.

Drake Wrought Iron Doors

Drake Wrought Iron Doors are the ultimate statement in security and classical elegance. Hand-forged for architects, contractors, and homeowners who demand a grand entrance, these doors combine artisanal craftsmanship with modern thermal performance.

- **Hand-Forged Artistry:** Intricate scrollwork and custom iron designs that provide a unique, luxury aesthetic for any entryway.
- **Exceptional Durability:** Built to last for generations, offering superior structural integrity and home security compared to standard materials.
- **Operable Glass Panels:** Many of our iron doors feature integrated glass panels that open independently, allowing for ventilation and easy cleaning without compromising security.
- **Thermal Efficiency:** Engineered with advanced weather-stripping and thermal breaks to ensure your home remains energy-efficient, regardless of the ornate design.
- **Versatile Finishes:** Available in various powder-coated finishes—from oil-rubbed bronze to matte black—to perfectly complement your home's architectural palette.
