# Industrial Equipment & Service, is The Right Pump Repair Shop For You!

***IES, has the Expertise and Capabilities, to Provide creative Solutions, for your critical Rotating Pump Repairs and Rebuilds.***

**INDUSTRIAL EQUIPMENT  
SERVICE**

***Regardless of the type of Pump, or Pump OEM, IES, will offer a Cost-effective course of action, for a complete Repair.***

**IES, HAS THE FLEXIBILITY  
TO MEET YOUR SCHEDULES,  
AND GET YOUR PUMPS  
BACK IN OPERATION.**

# Considering Rebuilding Your Blower

Our techs are factory authorized to perform work and have decades of experience repairing blowers. The shop stocks most of the major parts required for repairs, so turn-around times are quick.

When you send your PD Blower to IES's repair shop for a free repair estimate, the unit is disassembled and inspected right away. A report is generated noting its current condition and what actions are required to restore the unit. An estimate of the repair cost, as well as a price for a new replacement unit for comparison is provided with the report. If it's cost effective to repair the unit we will contact you to receive your authorization to begin the rebuild to factory tolerances. All of our rebuilt blowers carry a 24 Month - Warranty.

# Impeller Repair and Balance

IES's repair facilities are equipped with the latest balancing technology and factory trained technicians. We use Balance Master Easy Balance software. Capabilities of our equipment include up to 5000 lbs, 72 inch diameter and 12 feet in length. All impellers, multiple stages assemblies', blower rotors and fans are balanced to customer specifications, to the original equipment manufacturers specifications, balance tolerances can significantly reduce vibration levels that should dramatically reduce premature bearing and ring wear. This should substantially increase the mean time between repairs of the pump.

# Contact information

➤ If you Are in an emergency, And need immediate assistance, We offer 48 Hour Turn around Time, Please Feel Free To contact us At our 24/7, Emergency Line at: (832)-873-6806, or Email All inquiries To [JonathanMontes.ies@Gmail.com](mailto:JonathanMontes.ies@Gmail.com).
