

TRUSTe LLC Independent GDPR Privacy Program Management Validation Findings Summary

Expiration date: October 5, 2024

Scope

TRUSTe LLC¹ reviewed the global privacy program of GoDaddy (“Organization”) as of October 5, 2023 against the 40 GDPR Privacy Program Management Validation Requirements (the “Validation Requirements”) comprising the TrustArc GDPR Privacy Program Management Compliance Validation. A validation review of the Organization’s GDPR Privacy Program involves a comprehensive evaluation of program-level measures and evidence of those measures to ensure that the processing of personal information conducted by them, or by a third-party processor on their behalf, is performed in compliance with the EU General Data Protection Regulation (GDPR).

Inherent Limitations

Because of their nature and inherent limitations, program-level measures of the Organization may not always operate effectively to meet the applicable Validation Requirements. Furthermore, our findings herein are subject to the risk that the Privacy Program, or any component of the program, may change or that program-level measures implemented by the Organization may become ineffective or fail.

Findings

In our opinion, in all material respects, based on the descriptions and supporting evidence of program-level measures identified in GoDaddy’s GDPR Validation Assessment:

- the applicable program-level measures as further described in the Findings Letter and TRUSTe Validation Report have been implemented as of October 5, 2023.
- the measures described in the GDPR Validation Assessment were suitably designed to provide reasonable assurance that the Validation Requirements would be met if the program-level measures operated effectively as of October 5, 2023.

Restricted Use

This summary² of the Findings Letter and accompanying report is for the intended use of GoDaddy as of October 5, 2023.
